Public Service Commission of S.C.
101 Executive Center Drive, Suite 100
Columbia, SC 29210

RECEIVED

APR 16 2007

PSC SC
DOCKETING DEPT.

Dear Ms. Fleming:

We are writing this letter to you since you are our representative on the South Carolina Public Services Commission.

Inman, Campobello, and Landrum the three towns located in Spartanburg County School District 1 are very much concerned about local telephone service among the towns. The company providing service to the area for years has sold the company to Windstream, the new owners. The three towns have continually talked about getting the Public Services Commission to review the local telephone situation. There have been changes in community ties, and with the new ownership taking over, we feel that the review of the local service is necessary at this time.

Telephone calls to and from Inman to Campobello (3 miles apart) and Landrum (5 miles) are long distance. A call to and from Spartanburg to Inman is a local call. It is long distance from Campobello and Landrum to and from Spartanburg. In fact the School District and other businesses that calls from Landrum and Campobello to Inman, or vice versa must have two phone lines in order not to pay for long distance service.

Ms. Fleming, the Town of Campobello cordially requests that you have the PSC to review our request to make the whole area local calling to and from all three towns.

Thank you for your consideration,

J. Ray Copeland, Mayor
Town of Campobello

CC: The Honorable G. O'Neal Hamilton, Chair, PSC
